L'ORÉAL

What we have learnt in successfully working with hundreds of clients over the last ten years is that there are three key problems that get in the way of you being able to share your messages in a powerful way.

The good news is, there is a solution for each of them.

THE 3 KEY PROBLEMS

- 1 Unclear message:** you find it difficult to develop a compelling message and to craft a story that resonates.
- 2 Death by PowerPoint:** you know that bullet points kill your audience's attention but you don't know how to design the right visual slides.
- 3 Inability to connect:** without an engaging narrative and powerful visuals that amplify your ideas, you find it difficult to connect with your audience.

THE 3 KEY SOLUTIONS

- 1 Compelling message:** you have to identify your key messages and shape them into a compelling storyline that grabs and keeps the audience's attention.
- 2 Elegant visuals:** you have to illustrate your talk with memorable visuals that help your audience to understand and remember.
- 3 Powerful communication:** you have to make sure you are 100% ready to get up in front of your audience and deliver your presentation comfortably and convincingly.

THE PRESENTATION SCORE METHOD

IT'S MORE THAN JUST POWERPOINT

If you think a presentation is just about PowerPoint, you've missed the point. It's about connecting. It's about a story, a proposition or a value that gets communicated.

FIVE SUCCESS CRITERIA FOR EVERY PRESENTATION

The Presentation SCORE Method aims to ensure all presentations meet five key success criteria:

THE PRESENTATION SCORE METHOD CONSISTS OF FOUR STEPS:

STEP 1

IDEATION

Understanding your audience and their needs, setting your objective, and brainstorming to find your key messages

STEP 2

CREATION

Shaping your messages into a compelling storyline that grabs and keeps the audience's attention and makes your key messages stick

STEP 3

ILLUSTRATION

Illustrating your talk with powerful visual aids that help your audience to understand and remember, instead of the typical death-by-bullet-point that only makes them switch off

STEP 4

DELIVERY

Preparing to speak, rehearsing, and delivering your presentation comfortably and convincingly

WHAT'S INCLUDED IN THE PRESENTATION SCORE PROGRAMME

Who's This For?

This programme is ideal for established business owners and professionals who want to deliver powerful presentations.

This is not for people who are not open to trying a different way of creating presentations. At Ideas on Stage, we avoid any association with poor presentations. Our reputation is very important to us, therefore if a client does not allow us to make their presentation a success, we prefer not to be associated with that presentation at all.

If, however, you want to make a great impression on stage and above all, you want to share your message, make an impact and be memorable, then this is definitely for you.

What We Want From You

There's only one thing we want from you: to commit to the process. After each session we will propose exercises and activities which will be different from the things most people do when they create business presentations. Do the work, and trust and enjoy the process. Your audiences will thank you.

WHAT OUR CLIENTS SAY

I approached Andrea from Ideas on Stage because I was invited to give a talk to a large audience at a seminar. I had never given a sales presentation to such a large audience before and I wanted to execute it well. Andrea helped me develop a really good structure for my presentation. I had powerful slides that amplified my messages and he also helped me deliver it in the most effective way. One thing I liked was his proactiveness, flexibility and practical approach. His programme is not about theory, it's a practical programme which helped me prepare a great presentation from start to finish: working on content, structure, slide design and public speaking coaching. I would highly recommend Andrea to other business owners who want to share their message, make an impact and be memorable.

I approached Ideas on Stage because I was invited to give a TEDx Talk, I had a very important message to share and I wanted to do it well.

I'm so grateful that I found and hired Andrea to help me distill my story and share it on a TED stage. Their process is amazing - helping people to structure their story around key messages. That was huge and really helped target and hone my talk.

How he related to me as a client was also amazing - he listened, he gave me time, he was insightful and perceptive. He was also able to distill my core messages quickly. People were engaged throughout my talk and I even received a standing ovation from the audience!

It was great working with Andrea. I wouldn't have been able to do it like that by myself. Hiring Ideas on Stage was one of the best decisions I've ever made.

I would recommend them to lawyers like me, business professionals and anyone who wants to be able to tell their story powerfully and communicate effectively.
